

Net weight 16 Kg - Box vol. 0,38 m³

INDACO ARMCHAIR - cod. 1A0671201

Structure:

Components are made of flexible flame-retardant polyurethane, cold-foamed, with an average density of 60-70 kg/m³. The internal frame is made of steel tubular sections of various sizes and is equipped with elastic springs in the backrest for enhanced comfort, further complemented by a harmonic steel spring system designed to improve seating comfort even more. The structure is also completed with PVC inserts at the base for securing the upholstery and with black zamak hinges for opening and closing the side panels. The seat is made of flexible flame-retardant polyurethane, moulded over a metal insert and cold-foamed. The internal seat frame is in steel tubular sections and is fitted with hinges and a black nylon locking system for attachment to the shell. No special instructions are required for the use of the armchair.

Upholstery:

Upon request, the product can be upholstered with customer-supplied fabric.
Fabric consumption: 2.7 linear metres - fabric width: 1.40 m.

Package:

Box dimensions W 120 × D 36 × H 88 cm
Pieces per box 2
